Gdynia, 28.09.2026

Dear Customer,

With reference to the letter dated 14 April 2026 and due to changes in price on the international energy and fuel markets, resulting from factors beyond GCT's control, we have decided to introduce changes as of 1 November 2026 to the following surcharges:

- Emergency Energy Surcharge at 6,60 PLN / 1,50 EUR (settled in the currency specified in the agreement) per laden import/export box
- Emergency Fuel Surcharge at 12,70 PLN / 2,90 EUR (settled in the currency specified in the agreement) per laden import/export box

These surcharges shall be charged to the entity ordering the grounding or pickup of laden import and export containers, regardless of fees resulting from separate, applicable agreements including the standard THC. They will appear on the invoice as a single consolidated line item named: *Energy and fuel cost increase surcharge.*

The surcharge levels will be adjusted in accordance with the prevailing market situation.

Please note that the level of the above surcharges will also be affected by GCT's ongoing terminal electrification programme, including investments in new electric terminal equipment.

We will continue to closely monitor developments in the energy and fuel markets and reserve the right to adjust these surcharges as required.

Thank you for your understanding and continued cooperation.

Should you require any additional information or clarification, please contact our Commercial Department, whose contact details are available on our website www.gct.pl.

Yours sincerely

Jan Jarmakowski
Managing Director
